

Employee/Volunteer Immunization Status

The following vaccines are routinely recommended for all adults at certain points in their life. Some of these vaccines are free, and others may need to be purchased.

Staff immunization is not mandatory however it is strongly recommended as a best practice to protect staff and persons in care. Licensees must keep a record of each employee's immunization history even if the immunization is incomplete.

Please be aware that you may be asked to remain absent from the facility in the event of a disease outbreak.

Vaccine	Complete	Incomplete	Prefer not to disclose
Tetanus and Diphtheria (Td)			
Tetanus, Diphtheria, and Pertussis (Tdap)			
Shingles			
Pneumococcal Polysaccharide			
Influenza (Flu)			
Covid-19
